1 Summary

Job Title Senior Airport Consultant
Location Bournemouth, UK

2 About Us

Think Research is an Air Traffic Management and Airports consultancy based in Bournemouth, UK.

We specialise in improving operational and regulatory performance of our clients. We apply a range of analytical and modelling techniques coupled with our expertise on present and future operations, technology and policy in the ATM and Airport domains.

We are a growing consultancy with ambitious growth plans. We have achieved strong growth through:

- High client retention
- High staff retention
- Exceptional track record of delivery

The input of our staff into the company, its direction and its growth are key to us and we offer:

- Competitive rates of pay
- Above average pension scheme
- 36 Days holiday (inclusive of UK Bank Holidays)
- Graduate scheme
- Tailored career development and performance reviews
- Targeted training and continuous coaching
- Generous Maternity & Paternity pay
- Company Sick Pay scheme
- Paid charity leave (up to a maximum of 5 working days)
- Flexible working options available
- Regular team social events
- 20% of company shares granted to staff allocated under employee share scheme

We are now looking for experienced candidates to support the growth of our Air Traffic Management team. As a consultant with us you will be involved in a variety of interesting projects for clients around the world, be expected to build and manage client relationships and maintain the standards that we expect on each assignment.

3 Suggested Profile

Candidates for this position should have at least 3 years' work experience, which could be in a variety of backgrounds in aviation consultancy, with an airport, working on airport projects within an ANSP, regulatory body or within military ATC operations. You will be knowledgeable in airport operations

(understanding of airfield operations and ATC a bonus), related policy and regulations as well as having an excellent understanding of how airports, Air Traffic Management and airlines fits into the overall aviation industry.

Our projects cover a variety of areas such as safety management, investment appraisal, airspace & airport capacity and environmental matters. Experience in any of these areas would be considered particularly advantageous.

You should be confident working on complex problems within multidisciplinary and international teams and able to comfortably work with data in analysing problems.

Experience in writing bids and reports for decision makers would be considered advantageous.

We need our consultants to have excellent written and verbal skills. Most importantly you will be an ambitious, flexible and above all personable candidate able to communicate confidently, adapt quickly and act on your own initiative.

We're not a big, process heavy bureaucracy so if you are looking for a well-worn, fully mapped out career route we are likely not for you. If on the other hand you like challenge, working on the edge of your comfort zone and the diversity of opportunity that comes from being part of a growing SME then we can give you a fantastic environment in which to turbo-charge your career.

4 How to Apply

To apply for this position please send a cover letter expressing your reason for applying for the role and your CV to jobs@think.aero. Please also include the title of the position you are applying for within the email subject line.

We would expect candidates who are selected for interview to prepare and deliver a presentation on a topic of our choosing. We would expect new recruits to be able to be based at our office in Bournemouth.
